DETAILED ACTION

Remarks

1. Claim 1 has been examined. Claim 1 has been rejected. This document is the first Office action on the merits.

Specification

2. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Objections

3. Claim 1 is objected to because of the following informality:
 - a. Claim 1's preamble cites "An accessible user interface and navigation system and method comprising," however the claim has not system structure nor is it an accessible user interface and navigation method. Instead, the claim is a method for selecting a user interface.Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 6,934,915 (Rudd et al.).

Claim 1 can be mapped to Rudd as follows: “An accessible user interface and navigation system and method comprising:

- accessing a manageable subset of core features needed by a user with a disability to access information; [Rudd, col. 5, lines 15-21 with Rudd, cols. 5-6, lines 65-4 with Rudd, col. 8, lines 44-48]
- choosing specific features that are matched to said user's disability; [Rudd, cols. 5-6, lines 65-4 with Rudd, col. 6, lines 12-15 with Rudd, col. 6, lines 30-33 with Rudd, col. 8, lines 44-48] and
- selecting an accessible user interface tailored to said user's disability to allow said user access to information” [Rudd, cols. 5-6, lines 65-4 with Rudd, col. 6, lines 30-40].

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Applicant is advised that, although not used in the rejections above, prior art cited on the PTO-892 form and not relied upon is considered materially relevant to the applicant's claimed invention and/or portions of the claimed invention.
